## PROFESSIONAL EXPERIENCE

4/2019 – Present **Front End Web Developer @ Tailored Brands**

- I build multiple Joseph A. Bank homepage refreshes every week based on photoshop/sketch files from designers.
- I work cross-functionally along business, product managers, designers, vendors, and marketing.
- I code HTML emails across multiple brands that go out daily.
- I participate in UI/UX A/B testing in an Agile group, directly resulting in increased conversion, sales, and revenue.

11/2018 – 02/2019 **Web Developer @ PRO Unlimited – onsite at Gap, Inc.**

- Contractor at Gap, Inc. headquarters. Turned visual mock-ups from design team into code used for homepages on Old Navy's international sites.

10/2011 – 02/2018 **San Lorenzo Unified School District -Nutritionist / Supervisor**

09/2010 - 10/2011 **San Leandro Unified School District - Food and Nutrition Services Manager**

## PUBLISHED APPS

### **WHICH PARENT: MOM OR DAD? (Microsoft App Store)**

<https://www.microsoft.com/en-us/p/mom-or-dad-which-parent/9ncm6gg7vs7t/>

- Mobile-first Progressive Web App (PWA) using Microsoft Azure facial recognition APIs. Built with React.
- User uploads image from camera or gallery of both parents and child. Images are compressed, uploaded, and analyzed using Microsoft Face AI. 27 facial data points are compared between parent/child and a similarity confidence is returned to show which parent the child resembles the most.

### **PIVOT POINTS (Microsoft App Store)**

<https://www.microsoft.com/en-us/p/pivot-points/9pk9s4738t6c/>

- Mobile-first Progressive Web App (PWA) using Alpha Vantage API. Built with React.
- Pivot points are a technical analysis tool used by stock traders to assess the following trading day.
- User enters stock/ETF symbol and pivot point data is calculated and displayed.
