SUMMARY

Full Stack Developer, specializing in the MERN Stack. I'm naturally curious and constantly learning new things as well as understanding the reasons behind something.

I enjoy problem solving and I'm eager to learn and teach. I especially enjoy working in Javascript and figuring out the logic to complete a task.

EXPERIENCE

10/2011– 02/2018
Nutritionist
San Lorenzo USD
• Automated documentation and production paperwork though Javascript based application, increasing operational efficiency
• Managed 50+ employees
