

Thomas Kim

SOFTWARE ENGINEER | FRONT-END ENGINEER

tomkim825@gmail.com | <https://www.linkedin.com/in/thomas-c-kim> | <https://tomkim825.github.io/>

PROFESSIONAL SUMMARY

Software engineer with experience building and enhancing web applications across SaaS, healthcare, and e-commerce environments. Strong background in Angular-based front-end development, feature delivery, production support, platform modernization, and collaboration within agile teams. Experienced in shipping new features, maintaining member-facing platforms, supporting release processes, and turning design mockups into production-ready user experiences.

CORE SKILLS

- Angular + AngularJS
- TypeScript
- AI-assisted (codex) Development Workflows
- NgRx
- JavaScript

PROFESSIONAL EXPERIENCE

Software Engineer II

SportsEngine | Full-time | Remote

May 2025 - Present

- Develop new features and enhancements across multiple repositories within the platform.
- Use AI-assisted development as part of the initial workflow, then validate, correct, and fine-tune results to deliver projects on time.
- Contribute across shared platform codebases with a focus on practical execution, iteration speed, and delivery reliability.

Software Engineer

SportsEngine | Members & Rosters Team | Remote

Nov 2021 - May 2025

- Built new features for the Season Management platform as part of the Members & Rosters team.
- Worked on product development for roster and member-management functionality in a live SaaS environment.
- Applied Angular and NgRx-based front-end development practices within a collaborative remote engineering workflow.

Application Developer

Blue Shield of California | Oakland, California, United States

Apr 2020 - Nov 2021

- Delivered front-end enhancements for a member portal in Angular within an agile scrum process.
- Contributed to the billing and payments experience and supported development of prior-authorization functionality.
- Participated in migration work to move code from JSP to Angular.
- Supported adjacent technical processes involving IBM Web Content Manager and Akamai CDN.
- Helped manage scheduled releases and provided immediate support for production defects after release.

Front End Web Developer

Tailored Brands, Inc. | Fremont, CA

Apr 2019 - Apr 2020

- Built multiple weekly homepage refreshes for Joseph A. Bank based on Photoshop and Sketch files from the creative team.
- Created HTML email campaigns across multiple brands including Men's Wearhouse, Jos. A. Bank, Moores, and K&G Fashion.
- Worked in an agile, cross-functional A/B testing scrum supporting revenue-focused site experimentation.
- Implemented ADA compliance updates for josbank.com.

Web Developer

PRO Unlimited, Onsite at Gap, Inc. | Contract | San Francisco, California, United States

Nov 2018 - Feb 2019

- Worked as a contractor at Gap, Inc. headquarters on the Old Navy team.
- Turned design mockups into production code for Old Navy international homepages, including Canada, Mexico, and Egypt.
- Built category and promotional banner experiences for e-commerce campaigns.
